

The SAEDA logo, like our organization name the Sustainable Agriculture & Environment Development Association exemplifies the work we do to promote sustainable agriculture and safeguard the environment. The two rice plants, the traditional & staple food of Lao people, illustrating the work we do to enhance our target communities capacity to achieve food security through our sustainable agriculture promotion and training activities, with the sun & droplet of water symbolizing the environment, which we advocate the safeguarding of through the research and awareness campaigns we engage in. The circular form highlighting our holistic approach to gender inclusive participatory community development.
